SAVING YOU TIME. IMPROVING YOUR RESEARCH.

Academic studies and the experience of professionals back the common sense conclusion that the Form 4 data filed daily at the SEC is a profitable data stream to mine for investment intelligence. But most analysts and investors use commodity insider feeds that are full of noise and time-consuming to analyze, or expensive ratings services that employ last century's simplistic insider scoring methodology.

InsiderInsights combines statistical returns with behavioral analysis to effectively quantify this valuable qualitative information feed. Decades of experience analyzing insider filings is programmed into our systems for harvesting, tagging, and analyzing the insider trading forms as soon as they arrive at the SEC each day, so clients can efficiently use insider data as a primary, secondary or tertiary research input.

InsiderInsights compiles **Daily & Weekly** reports that list US equities with recent insider activity, along with our proprietary, independently validated **Company Ratings** clearly indicating the *Significance Level* of insiders' sentiment on their stock. Our **Monthly Special Screens** further combine our Ratings with various fundamental and price action criteria, to highlight the best value, growth, momentum, and short ideas coming from the executive suite.

For information about our Ratings, Real-Time Power Alerts, and API Products, call (212) 784-6860 or email Jonathan@InsiderInsights.com.
